

Don't Swallow the Lie! is a life-saving educational campaign designed to teach the truth about the dangers of abortion pills (chemical abortion). Most mothers and babies are protected from all methods of abortion in West Virginia, including abortion pills. But WV women are being lured into obtaining pills from out-of-state – which adds more risk to an already-dangerous drug.

Inadequate studies are used to claim that major complications are rare. But well-documented evidence – from both inside and outside the U.S. – shows otherwise. Recent research using data from U.S. insurance claims showed that more than 1 in 10 women experience sepsis, infection, hemorrhaging or other serious events within 45 days following a mifepristone abortion.

WHAT YOU CAN DO TO HELP

1. Attend/Sponsor the WVFL Annual Rose Dinner

Friday, April 16, 2027 Mariott Waterfront, Morgantown
Reception 5:30 p.m. *RoseDinner.com*
Dinner 6:30 p.m.

*If you can not attend,
you can still sponsor this critical event!*

2. Plan to Attend Pro-Life Rally Day on Feb. 25th

As a part of this event in the lower rotunda of the West Virginia Capitol,
you can make a difference in the battle for life in West Virginia.

- Register beginning at 9 a.m. in lower rotunda
- Meet with your legislators (by appointments pre-arranged by you)
from 10:00 – 11:00 a.m.
- Rally at noon in the lower rotunda
- Pray in the processional following the Rally at 1:30 p.m.

*The day will be filled with fellowship, music, exciting speakers and a special
prayer walk through the Capitol on behalf of those harmed by abortion.*

The event will support legislation that: 1) Requires medical personnel to be educated about the risks posed by abortion pills, and the safe choice of abortion pill reversal for women who change their minds. 2) Restores informed consent to mothers who meet the requirements to have an abortion in WV by requiring that they be informed about the risks of, and alternatives to, abortion. This includes the dangers of the abortion pill, along with the fact that the effects of such a chemical abortion can be reversed. Informed consent legislation would also ensure that information on disabilities (including support networks) is given to parents when they are told that their unborn child has special needs.

3. Contact Your Representatives: 877-565-3447

At www.WVforLife.org/legislation, find representatives' contact information sorted by county, and their voting records. Where appropriate, thank state Delegates and Senators for their efforts to build a culture of life in West Virginia. Ask them to continue passing bills that protect women, save babies, and protect people from assisted suicide.
